Daily Essential Care Kit User Guide

(For Dogs)

IMPORTANT SAFETY PRECAUTIONS

-Please read the instructions on each individual product package before use.

-Conduct a skin test before first use.

-This product is for daily care only and is not a substitute for veterinary diagnosis and treatment.

Daily Basic Cleaning 01

• Pet Eye Wipes

Gentle & Non-irritating

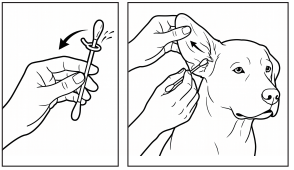

Usage: Wipe gently from the inner corner to the outer corner of the eye. Use a clean side of the wipe for each eye to avoid cross-infection.

• Pet Ear Cleaning Swabs

Gentle & Effective

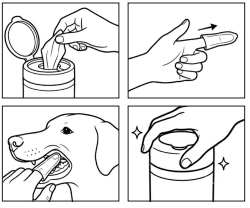

Usage: Hold the swab with the colored ring upward, break the ring to release the liquid, and gently wipe the visible part of the outer ear canal.

• Pet Dental Finger Wipes

Pet-Safe Formula

Usage: Open the lid, take out one wipe and put it on your finger. Gently rub back and forth over your pet's teeth and gums to clean thoroughly. Close the lid tightly after use to prevent moisture loss.

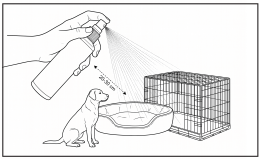

Environment Freshening 02

• Odor Neutralizing Spray

Pet-Safe & Eco-friendly

Usage: Spray evenly 20–30 cm above surfaces on your dog's bedding, crate, or any space in need of freshening.

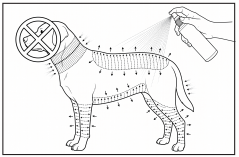

Outdoor Protection 03

• Pet Outdoor shield Spray

Plant-based & lick-safe

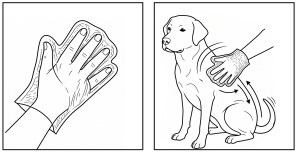

Usage: Spray evenly on legs, belly, back, and neck. Avoid eyes, mouth, and nose.

• Pet Glove Wipes

Gentle formula & quick cleaning

Usage: Wear gloves directly and wipe your pet's body to remove dust and dirt.

• Pet Paw Balm

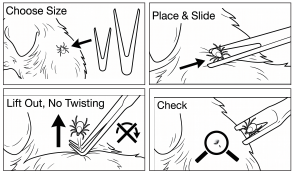

Moisturizing & protective

Usage: After outdoor activity, clean and dry the paws and apply an appropriate amount to paw pads.

• Tick Remover

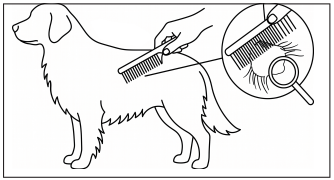

Choose the right size according to the tick.Place the remover against the skin, slide notch under tick and gently lift tick out, do not twist.Check if the tick is completely removed.

Daily Coat Care 04

• Pet Grooming Comb

Usage: Comb in the direction of hair growth, you can check the skin condition at the same time.

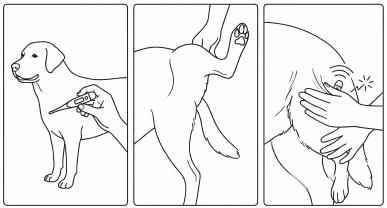

Health Monitoring 05

• Pet Thermometer

Soft tip, safe & comfortable

Inner thigh measurement

Lift your pet's hind leg, place the probe firmly against inner thigh skin, and hold the leg closed until the beep sounds.Normal body temperature(skin temp.) for dogs: approx. 37.0°C – 38.5°C.

Note: Consult a veterinarian immediately if your dog has an abnormal temperature or shows other abnormal symptoms.
