HEALGEN® XSUTE®

Home Comfort Care Kit User Guide

(For Cats)

IMPORTANT SAFETY PRECAUTIONS

-Please read the instructions on each individual product package before use.

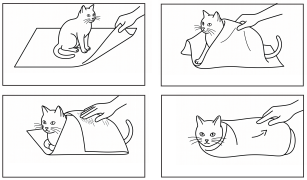

-Conduct a skin test before first use.

-This product is for daily care only and is not a substitute for veterinary diagnosis and treatment.

Gently Restrain Cat 01

• Self-Adhesive cloth

Gently wrap your cat to safely restrain them, making care procedures easier.

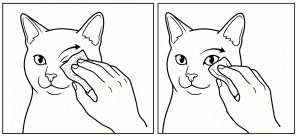

Daily Basic Cleaning 02

• Pet Eye Wipes

Gentle & Non-irritating

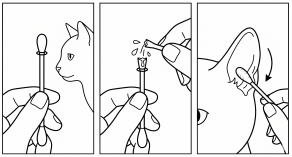

Usage: Wipe gently from the inner corner to the outer corner of the eye. Use a clean side of the wipe for each eye to avoid cross-infection.

• Pet Ear Cleaning Swabs

Gentle & Effective

Usage: Hold the swab with the colored ring upward, break the ring to release the liquid, and gently wipe the visible part of the outer ear canal.

• Pet Dental Finger Wipes

Pet-Safe Formula

Usage: Open the lid, take out one wipe and put it on your finger. Gently rub back and forth over your pet's teeth and gums to clean thoroughly. Close the lid tightly after use to prevent moisture loss.

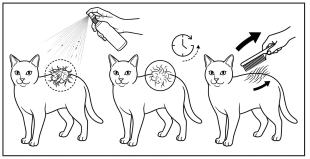

Coat Care 03

• Pet Detangler Spray

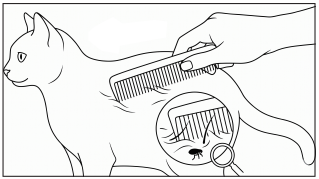

Anti-static

Usage: Spray directly on the tangled area, wait for 30 seconds to soften, then gently comb in the direction of hair growth.

• Pet Grooming Comb

Usage: Comb in the direction of hair growth, you can check the skin condition at the same time.

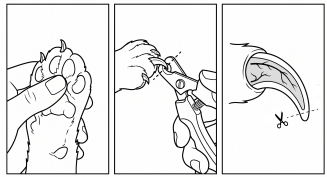

Nail Care 04

• Pet Nail Clippers

Designed for pets

Usage: Press the paw pad gently to expose the nail. Cut only the transparent curved tip (approx. 1–2 mm). Avoid the pink part to avoid bleeding.

Note: Consult a veterinarian if bleeding occurs or your cat strongly resists.

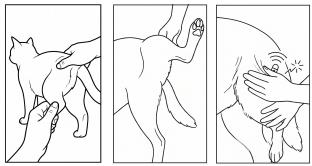

Health Monitoring 05

• Pet Thermometer

Soft tip, safe & comfortable

Inner thigh measurement: Lift your pet's hind leg, place the probe firmly against inner thigh skin, and hold the leg closed until the beep sounds.Normal body temperature(skin temp.) for cats: approx. 38.0°C – 39°C.

Note: Consult a veterinarian immediately if your cat has an abnormal temperature or shows other abnormal symptoms.

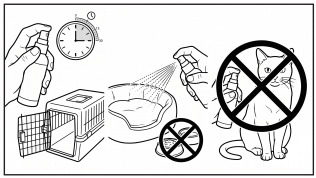

Stress Management 06

• Cat Calming Spray

Safe formula

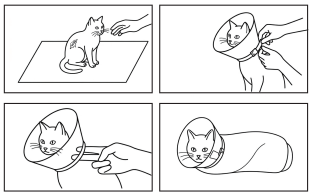

Usage: Spray 15–30 minutes before your cat enters a new environment or stressful situations (travel, visitors, moving), spray on cat bed, or resting areas. Avoid food and water.
Note: Do NOT spray directly on your cat or its face.

Post-Operative Care 07

• Cat Cone Collar

Usage: Wear after surgery or when wounds are present. Can be used with self-adhesive cloth for restraint. Should allow 1–2 fingers to slide between collar and neck.
